**Replication Link Analyzer**

## Link is failed on site P01

Replication link analyzer detected the link failed on site P01. The link failure may have been caused by previously detected issues. Replication link analyzer recommends fixing previously detected issues and running this wizard again. If this problem persists, the replication link analyzer is unable to remediate this issue. Save the analysis and remediation logs and the rcnctrl.log files on site P01 and site T01 for further diagnosis.

	Replication Pattern	Sending Site	Receiving Site	Replication Group
▶	global_proxy	P01	T01	econdary_Site_Replication_Configuration
	global_proxy	P01	T01	Secondary Site Data
